- Road shows
- Exhibition
- Award & recognition

SCGJ- Skill Council for Green Jobs

Skill Council for Green Jobs is one of the most recently launched initiatives of the Government of India aligned to the National Skill Development Mission. It is promoted by the Ministry of New and Renewable Energy (MNRE) and Confederation of Indian Industry (CII). The mission is to identify skilling needs of service users as well as manufacturers/ service providers, within Green Businesses sector, and implement nation-wide, Industry led, collaborative skills development & entrepreneur development initiatives that will enable meet India's potential for "Green Businesses".

SIGMA SUMMIT
2018

ABOUT EVENT

In the light of India's commitment of achieving 100 GW solar power capacity by 2022 and penetration in Urban, Semi-Urban and Rural areas through 40 GW Solar Rooftop systems, the "Sigma Summit 2018", is targeted to focus on various Solar Energy Applications and innovations being done to use Solar Energy across various countries. The objective is to bring together all Solar energy system developers and integrators to showcase their strength in Solar Energy Systems including solar rooftop. The Summit is aiming to get companies from developing and developed countries promoting various applications of solar energy with a view to have product display, B2B meetings and entrepreneurship development.

The summit would have a major vertical of showcasing design and skill strength of participating country in the solar domain. It is proposed to invite leading training institutions to participate in solar skill competitions, organise dedicated entrepreneurship development activities by establishing industry connect and undertake skill gap analysis. It is proposed to bring about 5,000 job seekers and job providers on the same platform in the Summit.

The Sigma Summit would be first of its kind, dedicatedly focussing on Solar Energy Applications and would attract small and medium sized industries and institutions involved in skilling, prospective entrepreneurs and innovators
